

LIBRADO HERNANDEZ

Full Stack Web Developer

I'm a Full Stack Web Developer who loves **technology** and **building things that make an impact**. Whether it's crafting seamless user experiences, automating workflows, or optimizing performance. For me, coding isn't just about writing lines of code—it's about **creating, improving, and making things work better**.

- Cloud & Deployment: GCP, AWS, Linode, DigitalOcean, Vercel, Cloudflare
- CI/CD & DevOps: Git, GitHub, Docker

Experience

FULL STACK WEB DEVELOPER MAXILITE MANUFACTURING LTD 2022 – Current / Remote

Custom Shopify Solutions: Developed and launched custom apps, themes, and sections using vanilla JavaScript, improving store functionality and UX.

API & System Integrations: Integrated Shopify with internal systems, building return systems, product tracking tools, dashboards, and a multi-store product management system.

Cloud & Deployment: Deployed apps across multiple cloud providers, including Digital Ocean, Google Cloud, Vercel, and Cloudflare, choosing the best fit based on project needs.

Performance & Security: Optimized APIs with advanced caching and enhanced security using IP tracking and anti-spam protections.

Automations & Workflows: Automated processes with Google Workspace APIs and implemented email notifications for better customer engagement.

Database & Scalability: Worked with SQL, MongoDB, Firebase, and Redis to ensure data integrity and scalability across projects.

UX to Code: Converted Figma designs into responsive interfaces using CSS, JavaScript, Vue, and React, ensuring high design fidelity and performance.
